INSTRUCTIONS FOR OPERATION OF DIAL TELEPHONES

1. GENERAL

Obtain the correct number from the directory before dialing.
Do not dial until you hear the dial tone, a steady humming sound.
If you make a mistake when dialing, hang up the receiver a few seconds and begin again.
Do not touch the receiver cradle or dial while talking.
If the number dialed is busy, a rapid intermittent sound will be heard.
Hang up the receiver, wait a reasonable time and dial the number again.
If the number dialed is not busy, a slow intermittent sound will indicate that the number is being rung.

2. CALLS TO TELEPHONES SERVED BY THE DEPT. OF AGRICULTURE MAIN SWITCHBOARD

EXAMPLE: A call for Branch 3353

Remove receiver.
Listen for the dial tone.
Place your finger in the opening over the numeral "3".
Move the dial clockwise until you strike the finger stop.
Remove finger and allow the dial to return to normal position.
Dial the numerals "3", "3", "5" and "3" in order in a similar manner.

3. CALLS TO BELTSVILLE RESEARCH CENTER

Dial the Code Number 837 to reach employees located at the "Center".
Dial WARfield 4400 to reach employees located at the Plant Industry Station (Consult instruction Number 5)
When an operator answers, give her the extension number, or the name of the person desired.

4. CALLS TO OTHER GOVERNMENT DEPARTMENTS

Do not call other Government departments or agencies by their central office number.
Where direct tie lines are provided to other Government departments or agencies, Code numbers are dialed to reach these organizations.
A list of direct tie lines to other Government organizations is shown on the cover page of this directory, together with their respective Code numbers.
When dialing the Code "0" give the operator the name of the Agency desired.
Upon dialing the code of the organization desired, you will be connected with the proper switchboard operator, who will complete your call.
If the tie lines of the Department you are dialing are all busy, you will automatically be connected with the Interdepartmental switchboard operator.

Example: A call for the Department of Commerce (Code 832)

Dial 832 and wait for the answer of the Commerce operator. If the 832 (Commerce) tie lines are all busy, you will receive an answer from

the Interdepartmental operator. When she answers, ask for Commerce. Where direct lines are not provided, calls are routed through the Interdepartmental (Government) switchboard, which is reached by dialing Code number, 80. When the Interdepartmental operator answers, ask for the Government department with which you desire to be connected.

5. CALLS TO OUTSIDE NUMBERS

EXAMPLE: Call to District 6713

Remove receiver and listen for dial tone.

Dial the figure "9", and listen for second dial tone; then dial the first two letters of the Central Office name, and the number followed by the letter, if there be one. If you receive the "busy" signal, hang up for a short interval and dial again.

6. LONG-DISTANCE AND TOLL CALLS

After dial tone is heard, dial the figures "87" for long-distance operator. All long-distance and suburban calls must be given to the Department's long-distance operator.

7. SIGNALLING THE OPERATOR TO TRANSFER CALLS

Calls originating on dial equipment in Department of Agriculture cannot be transferred by the operators.

On incoming central office calls and other calls handled by the operator, you may signal the operator to transfer the call to another telephone or for any purpose by moving receiver hook slowly up and down.

8. TO REPORT TROUBLE

If difficulty of any nature is experienced, call the Department's chief operator by dialing Branch 3388.

THIS DIRECTORY IS FOR OFFICIAL USE ONLY, AND THE NAMES APPEARING HEREIN MUST NOT BE USED FOR THE PURPOSE OF MAILING-LIST ADVERTISING.
